Repair and maintenance Oriental Life boat Davit & Winches and Life Saving equipments by authorized and trained service technicians.

Who are available worldwide to assist for repair and maintenance. Including Ship Crane Lifting appliances.

Education for Oriental

LIFE SAVING APPLIANCE Certification

Oriental Inspection & Service's certification education is

for the execution of the annual and 5-yearly inspections of the Oriental Precision & Engineering-produced life boat davits/winches, life raft davits, free fall davits and rescue boat davits with MSC 1206 for Life saving appliance as the theme. The education is conducted in each quarter of the year and is subject to change.

Employees of domestic and foreign maintenance companies who attend our education course will receive Oriental Precision & Engineering-issued ID card and certificate that verifies their qualifications for davit inspections, and these can be used to verify inspector qualifications for the ship owner or the ship officer in future inspections.

Only the inspectors who have completed our education course can function on our homepage, and the requirements of the applicants of the education will be decided by our company.

Certificate of authenticity

Introduction to certificate of authenticity for davit inspections.

After the completion of our education course, when the qualified engineers of each country inspect/repair Oriental Precision & Engineering's life boat davits, certificate of authenticity will be issued to each engineer.

Life saving appliances must guarantee the utmost safety in all emergency situations, and to prepare for this, the service of qualified engineers is necessary.

In the case that you receive services from engineers who have not received our certificate, our company will not be liable for any safety issues of our life boat davits.

On our homepage, we provide recommendations of qualified engineers in different countries, and through this service, you can receive the best service of our company.
